

Toddler Boy Fall 2018: \$140 Capsule  
Wardrobe at Target

This wardrobe was done for my son who started preschool. At the time of creating this capsule (September 2018) all the items can be purchased for \$140.45 before tax. This could be cheaper for you because at the time of calculation, none of the items were on sale.

There is a total of 65 combinations of clothing- with 5 school days per week and roughly 4 weeks in a month, this should provide approximately 3 months of school clothes without repeats of the exact outfit. The days of the week are categorized by the pants. This was really made to speed up mornings and make laundry easier- plus at less than \$150 at one store for a whole seasons worth of clothes is a score!

Here is the links for the 13 items included in this capsule wardrobe:
